Patient Care—Without Harmful Chemicals

IV Solutions, Pre-Mixed Drugs and Irrigation Solutions

As a leader in smart infusion therapy and safe, effective pharmacy products, our purpose is to help you constantly improve patient satisfaction and outcomes. Created to help you focus on what matters most, our products and services can help your health system succeed now and in the future. We offer a broad range of IV solutions, pre-mixed drugs and irrigation solutions in containers not made with DEHP, PVC or natural rubber latex.

More than three decades ago, we recognized the patient and environmental risks posed by products containing DEHP and PVC. Medical devices containing these chemicals pose potential health hazards to patients and to the environment during waste disposal. As a result, we were one of the first medical device manufacturers to remove these harmful substances from many of our products and continue to lead the way in offering a full line of IV solutions, pre-mixed drugs and irrigation solutions in containers that are manufactured biologically inert using non-toxic plastic materials.

EXCEL® IV Container

Available in: 250 mL, 500 mL, 1000 mL

- Sturdy port system
- Clear label
- 2D barcode

EXCEL® Plus IV Container

Available in: 500 mL, 1000 mL

- Sturdy port system
- Clear label
- 2D barcode
- Rounded corners

E3® IV Container

Available in: 1000 mL 0.9% Sodium Chloride Injection and Lactated Ringer's Injection

- No overwrap
- One-handed hanger tab
- 2D barcode
- Rounded shoulders
- Seamless design

Ready-to-Use:

DUPLEX® Container

Available in: 500 mg and 1G Meropenem; 1G and 2G Cephalosporins

- Easy bedside reconstitution
- No thawing or mixing procedures

PAB® (Partial Additive Bag)

Available in: 25 mL, 50 mL, 100 mL

- No overwrap
- Rigid port system
- Tamper-evident caps

TITAN XL™ Irrigation Container

Available in: 2000 mL, 3000 mL

- Innovative, convenient port system
- Tamper-evident injection site
- Highly transparent

PIC™ (Plastic Irrigation Container)

Available in: 500 mL, 1000 mL

- Lightweight
- No-drip lip
- Semi-rigid container
- Molded hand grip
- Ideal for overhead irrigation

Eliminate the risk of DEHP exposure while reducing the possibility of sub-therapeutic dose for drugs that are incompatible with PVC.

IV Solutions

- Sterile Water Injections
- Dextrose Injections
- Dextrose & Sodium Chloride Injections
- Lactated Ringer's Injections
- Sodium Chloride Injections
- Potassium Chloride in Dextrose Injections
- Potassium Chloride in Dextrose & Sodium Chloride Injections
- Potassium Chloride in Sodium Chloride Injections
- Isolyte Multi-Electrolyte Injections
- Mannitol Injections

Pre-Mixed Drugs

- Heparin Sodium Injections
- Lidocaine Hydrochloride and 5% Dextrose USP
- Metronidazole Injection USP 500 mg (5 mg/mL)
- Magnesium Sulfate in 5% Dextrose Injection, USP
- Levetiracetam in Sodium Chloride Injection
- Acetaminophen Injection

Ready-to-Use

- DUPLEX® Container

Irrigation Solutions

- Sodium Chloride Irrigation
- Sterile Water for Irrigation
- Lactated Ringer's Irrigation
- Ringer's Irrigation
- Physiolyte Irrigation
- Glycine Irrigation
- Acetic Acid Irrigation

B. Braun Cares

One of the biggest challenges facing healthcare providers today is enhancing safety and patient care while managing workflow efficiencies.

We're passionately committed to eliminating preventable treatment errors and enhancing patient, clinician and environmental safety with products, services and education focused on sharing best clinical practices.
