

RENAL THERAPY SOLUTIONS

Transforming the patient and caregiver experience.

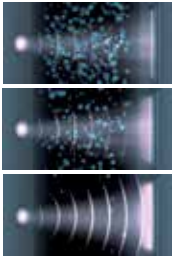

The B. Braun Advantage

B. Braun has been a leader in featuring innovative dialysis solutions for over 35 years.

We offer innovative, high performance products and services for use in dialysis. The core of our spectrum displays a basis which aims to improve clinical outcomes for the patient, while minimizing costs and risks for healthcare providers. Our support is capped with a team of clinical nurses, field service personnel, customer service and 24/7 technical assistance.

Advantages for:		Aquaboss® Dialysis Water Purification with end-to-end heat disinfection	Dialog® Hemodialysis Machine
	Patients	<ul style="list-style-type: none"> • Ultra pure water – better dialysate quality • Emergency mode – no treatment interruption • Chemical-free disinfection – reduced risk of contamination 	<ul style="list-style-type: none"> • Quieter system and • Quicker blood pressure at lower inflation level • Clear displays that a • Customized treatment
	Nursing and Clinical Care	<ul style="list-style-type: none"> • Ultra pure water – better quality treatment • Emergency mode – uninterrupted treatment • Chemical-free disinfection 	<ul style="list-style-type: none"> • Easy to learn and op • Individualized patient • Adimea ensures dialy • Alarm free preparati • Heat/citric disinfecti
	Physician and Medical Supervision	<ul style="list-style-type: none"> • Ultra pure water • Reliability and durability • Elimination of chemical residues 	<ul style="list-style-type: none"> • Consistent Kt/V mor • Individualized patient • Adimea ensures dialy • "At a glance" history treatment outcomes
	Biomedical	<ul style="list-style-type: none"> • End-to-end heat disinfection • Less risk of bacterial growth on membranes • Reliability and durability • Emergency mode • Remote monitoring 	<ul style="list-style-type: none"> • Low maintenance re • Easily accessible inte • Rotating monitor an • 24 hour DirectLine p
	Administration	<ul style="list-style-type: none"> • Less water consumption • Energy savings through heat on-demand disinfection • Reduced TCO • Reduced disinfection labor costs 	<ul style="list-style-type: none"> • Reduced TCO • Consistent staffing • Adimea allows for di • Reduced dialysate us

Adimea™ Innovative real-time Uremic Toxin Analysis Dose Monitoring	Diacap® Pro and xevonta® High Quality Dialyzers	Streamline® Bloodline System	Solcart B® Bicarbonate Cartridge
<ul style="list-style-type: none"> • Fewer alarms • Accurate uremic toxin measurements and trends • Easy to use and easy to read in patient education • Flexible in patient settings 	<ul style="list-style-type: none"> • Broad dialyzer size range which caters to wide array of patients • Biocompatible 	<ul style="list-style-type: none"> • Less extracorporeal blood volume • Airless system • Less heparin • Less clotting 	<ul style="list-style-type: none"> • Eliminates contamination risks involved with bicarb mixing
<ul style="list-style-type: none"> • Operate in all patient treatments • Accurate uremic toxin analysis dose monitoring • Easy to use and easy to read in patient education 	<ul style="list-style-type: none"> • Dialyzers are easily primed • Priming options open to facility protocols • Easy user handling 	<ul style="list-style-type: none"> • Less clotting airless and needleless bloodline system 	<ul style="list-style-type: none"> • No bicarb mixing
<ul style="list-style-type: none"> • Accurate monitoring of uremic toxin in all patient treatments • Accurate uremic toxin analysis dose monitoring and trending of uremic toxin 	<ul style="list-style-type: none"> • High uremic toxin elimination • Biocompatible 	<ul style="list-style-type: none"> • Less clotting airless bloodline, improved outcomes and reduced heparin use 	<ul style="list-style-type: none"> • Consistent and uniform conductivity
<ul style="list-style-type: none"> • Minimal maintenance requirements • Superior for parts repair • Easy to use and easy to read online service screens • 24/7 phone support 			<ul style="list-style-type: none"> • Eliminates the need for bicarb mixing and loop maintenance • Elimination of transducer protectors - no breakthrough
<ul style="list-style-type: none"> • Accurate uremic toxin analysis dose optimization • Lower uremic toxin exposure 	<ul style="list-style-type: none"> • Wide range of dialyzer surfaces to optimize care • Price competitive 	<ul style="list-style-type: none"> • Less clotting • Less dialysate used • Less saline used 	<ul style="list-style-type: none"> • Simple cartridge exchange with Solcart

Extraordinary Dedication | Expertise Guiding | Healthy Development

B. Braun comes with a full array of services and specialists you won't find just anywhere. We are dedicated to finding solutions for everyday healthcare needs.

Visit our clinical on-line resources at www.BBraunUSA.com/Clinical for more information on educational training and value webinars.

Our Technical Services web page also displays a wide archive of videos and troubleshooting guides. Visit www.BBraunUSA.com/Technical to discover more.
