## B. Braun Medical Renal Therapies Quarterly Newsletter

---

### What's New

#### Solcart<sup>®</sup> B 760g Packaging

The packaging on our Solcart<sup>®</sup> 760g cartridges has changed. Instead of the outside plastic bag, the new 760g cartridges will have tamper-evident caps, which will help eliminate waste. The new item number is 839. Please use the new item number when ordering. There are no changes to the price or quantity per package.

#### Streamline<sup>®</sup> Item Numbers

As our new production facility for our Streamline<sup>®</sup> Airless System Sets is now fully producing, there will be a new set of item numbers. You will see both the new item numbers and the current item numbers in your

orders around April 2021. There will be no changes to the product, price, or quantity per package.

For Dialog<sup>®</sup> Streamline<sup>®</sup> Bloodlines, you will see both codes SL-2010M2096 and SL-2010M2096A in your orders.

For FMC Streamline<sup>®</sup> Bloodlines, you will see both codes SL-2000M2095 and SL-2000M2095A in your orders.

---

## Coming Soon

### Recorded Webinars

We are in the process of recording our free clinical webinars. Our recorded webinars will be available on the B. Braun collaborative care site in the near future for you to watch at your convenience.

Check [www.bbraunusa.com/clinical](http://www.bbraunusa.com/clinical) for updates!

### Nexadia Monitor Lite

Nexadia Monitor Lite software interfaces with your existing EMR to improve chairside processes using the Dialog+ machine to record non-machine information. Nexadia Monitor Lite networks HD machines and scales to the EMR and provides connectivity to improve efficiencies and ensure treatment orders are performed efficiently. If you're interested in learning more, email us to schedule a presentation with your clinic.
