Product News

NxStage Acquisition

We are pleased to announce that B. Braun Medical Inc. acquired Streamline[®] Bloodlines from NxStage Medical, Inc. in February 2019. Eleven new members from the Streamline team have also joined the B. Braun Renal Therapies division.

Streamline Bloodlines feature an innovative, airless, needleless design and use less tubing than typical bloodlines

The Power of Sharing Expertise

To achieve the highest possible quality in renal care and the best possible patient outcomes, we continually gather and share expertise with healthcare professionals and patients in renal therapies and water treatment specialties. We are committed to the continued development of high quality products for Hemodialysis (HD) and Continuous Renal Replacement Therapy (CRRT).

Featured Therapies

Hemodialysis

The Dialog+ hemodialysis machine is an innovative and efficient system for the treatment of chronic dialysis patients, with the goal of providing cost-effective solutions throughout the renal center.

In 2018, B. Braun Medical Inc. launched a new website layout for easier viewing on mobile, tablet and desktop devices. Advancements within the site also allow for improved search results as well as updated product page content and an updated master clinical documents library.

The link to the technical support portal is now available at www.tech-service-portal.bbraun.com.

Additional improvements to the technical service website page include:

- Spare Parts List
- Updated Technical Training Class page with detailed class descriptions and Training Class Registration Form
- Technical Support Contact Form
- Detailed descriptions of our Premium Service Packages
- Instructions on how to update the time on Dialog Machines and Aquaboss® systems after Daylight Savings time change

Customer Service

Customer satisfaction is of the utmost importance to the B. Braun Renal Therapies team. In an effort to improve our service, customers will receive an automatic email notification from any electronic order that has been back ordered.

Look for next quarter's email for additional developments and product announcements from the Renal Therapies team!
