Product Updates

Dialog 9.1E software

The new 9.1E software for the Dialog+ will be released soon! Features of the new software include:

- Quicker boot up time
- Weekly disinfection settable by service
- Software installation in one step
- Improved monitoring of sodium profiles
- Improved data logging capabilities for preventative maintenance
- 24 month PM

Bloodline Production

Streamline bloodline production has been restored to pre-COVID-19 levels. We have opened our new production facility in the Dominican Republic.
