- 1.5% Glycine Irrigation USP
- 0.25% Acetic Acid Irrigation USP
- 5% Mannitol Irrigation

Safe and Convenient in a Variety of Sizes

Irrigation Solutions

Safe for clinicians, patients and environment

- PIC™ containers are manufactured from non-toxic polyolefin material¹
- PIC™ containers are biologically inert and completely free from PVC and DEHP¹
- Incineration of PVC-free polyolefin produces less HCl and dioxin than incineration of PVC plastics²
- PIC™ containers do not leach toxic DEHP into landfills³

Convenient for clinicians

- Lightweight and durable containers reduce the risk of accidents
- Convenient design allows pouring and hanging of one container
- Double graduation scale shows accurate volume measurement when upright or inverted
- Molded hand grip makes PIC™ containers easy to handle
