

RENAL THERAPY SOLUTIONS

Transforming the patient and caregiver experience.

The B. Braun Advantage

B. Braun has been a leader in featuring innovative dialysis solutions for over 35 years.

We offer innovative, high performance products and services for use in dialysis. The core of our spectrum displays a basis which aims to improve clinical outcomes for the patient, while minimizing costs and risks for healthcare providers. Our support is capped with a team of clinical nurses, field service personnel, customer service and 24/7 technical assistance.

Advantages for:		Aquaboss® Dialysis Water Purification with end-to-end heat disinfection	Dialog® Hemodialysis Machine	Adimea™ Innovative real-time Dialysis Dose Monitoring	Diacap® Pro and xevonta® High Quality Dialyzers	Streamline® Bloodline System	Solcart B® Bicarbonate Cartridge
	Patients	<ul style="list-style-type: none"> Ultra pure water - better dialysate quality Emergency mode - no treatment interruption Chemical-free disinfection - reduced risk of contamination 	<ul style="list-style-type: none"> Quieter system design Quicker blood pressure measurements at lower inflation levels Clear displays that aid in patient education Customized treatment settings 		<ul style="list-style-type: none"> Broad dialyzer size range which caters to wide array of patients Biocompatible 	<ul style="list-style-type: none"> Low volume design to reduce extracorporeal volume Airless system Designed to reduce clotting thereby requiring less heparin 	<ul style="list-style-type: none"> Eliminates contamination risks involved with bicarbonate mixing
	Nursing and Clinical Care	<ul style="list-style-type: none"> Ultra pure water - better quality treatment Emergency mode - uninterrupted treatment Chemical-free disinfection 	<ul style="list-style-type: none"> Designed for ease of operation Individualized patient treatments Adimea monitors dialysis dose effectiveness Alarm free preparation Heat/citric disinfection 		<ul style="list-style-type: none"> Dialyzers are easily primed Priming options open to facility protocols Designed for easy user handling 	<ul style="list-style-type: none"> Airless pressure-transmitting assembly designed to reduce clotting Needleless access bloodline 	<ul style="list-style-type: none"> No bicarbonate mixing
	Physician and Medical Supervision	<ul style="list-style-type: none"> Ultra pure water Reliability and durability Elimination of chemical residues 	<ul style="list-style-type: none"> Consistent Kt/V monitoring Individualized patient treatments Adimea monitors dialysis dose effectiveness "At a glance" history and trending of treatment outcomes 		<ul style="list-style-type: none"> High uremic toxin elimination Biocompatible 	<ul style="list-style-type: none"> Designed to reduce clotting thereby requiring less heparin 	<ul style="list-style-type: none"> Consistent and uniform conductivity
	Biomedical	<ul style="list-style-type: none"> End-to-end heat disinfection Less risk of bacterial growth on membranes Reliability and durability Emergency mode Remote monitoring 	<ul style="list-style-type: none"> Low maintenance requirements Easily accessible interior for parts repair Rotating monitor and online service screens 24 hour DirectLine phone support 			<ul style="list-style-type: none"> Elimination of transducer protectors - no breakthrough 	<ul style="list-style-type: none"> Eliminates the need for bicarb mixing and loop maintenance
	Administration	<ul style="list-style-type: none"> Less water consumption Energy savings through heat on-demand disinfection Reduced Total Cost of Ownership Reduced disinfection labor costs 	<ul style="list-style-type: none"> Reduced Total Cost of Ownership Consistent staffing Adimea allows for dialysis dose optimization Reduced dialysate usage 		<ul style="list-style-type: none"> Wide range of dialyzer surfaces to optimize care Price competitive 	<ul style="list-style-type: none"> Airless components designed to reduce clotting Reduced dialysate due to increased blood flow potential Low volume design requires less saline 	<ul style="list-style-type: none"> Simple cartridge exchange with Solcart

Extraordinary Dedication | Expertise Guiding | Healthy Development

B. Braun comes with a full array of services and specialists you won't find just anywhere. We are dedicated to finding solutions for everyday healthcare needs.

Visit our clinical on-line resources at www.BBraunUSA.com/Clinical for more information on educational training and value webinars.

Our Technical Services web page also displays a wide archive of videos and troubleshooting guides. Visit www.BBraunUSA.com/Technical to discover more.
